

Climatic Chamber
 (Simulation Temperature, Humidity)
Manufacturer: Vötsch
Model: VC3 4018

General Description:

The Climatic Test Chamber is ideal for test specimens. The chamber contains a patented climate and temperature conditioning system, setting standards with regards to ease of operation, performance and equipment.

Key Specifications:

- Choice of temperature ranges:
 - 40°C (-42°C discontinuously) to +180°C
 - 70°C (-72°C discontinuously) to +180°C
- Humidity range from 10%RH to 98%RH
- Integrated recording of data
- Digital I/O
- USB and Ethernet interface

Availability:

Use allowed for all researchers with permission
